Declaration of commitment by the professor in STEM Match

By signing this declaration, I commit to actively supporting and mentoring the student …… throughout the entire funding period as part of "STEM Match – Shaping female futures in science." In addition to the individually agreed subject-specific tasks, the ten-month funding period pursues the following overarching goals:

- ✓ Integration into the team structures of the faculty or institute and introduction to academic and disciplinary culture
- ✓ Carrying out research-related tasks alongside the student's studies, with a clear subject-specific connection
- ✓ Expanding academic skills and knowledge through practical involvement
- ✓ Building networks within academia that extend beyond the funding period
- ✓ Reducing psychological and social barriers to an academic career, including through regular feedback conversations (at least two over the course of the funding period)
- ✓ Jointly reflecting on the professional and academic development of the student research assistant

Personal mentorship will be provided by myself and/or my female colleague* …… at the faculty or institute.
