**Arts Sciences**  
**TH Köln**

### Most Welcome

**Most welcome** are all international prospective students at TH Köln. Our German course program will prepare you efficiently and intensively for studies at a German university. The course program starts with level B1.1.

**Motivation and success** are core values of our German courses which prepare you for the German Language Exam Required for University Admission (DSH). Our experience over the past years has shown that only few participants drop out of the course and the success rate for passing the DSH is above average.

**Good counsel** is offered by the language instructors and staff of TH Köln. If you have questions regarding your application, the German course program, the study program, your study organization or financing, feel free to contact us.

**Digital and interconnected** describes how you learn in our courses. On-site sessions are combined with online tasks and digital live sessions.

### Participation Requirements

Admission to the program can be granted if the requirements relating to residence status and university entrance qualification are met.

#### **For the German course B1/B2**

Applicants have to demonstrate knowledge of German as a foreign language at least at completed level A2.2 through a university-related placement test at TH Köln (written test and interview) and will be placed either in course B1.1 or B1.2.

After successfully passing the German B1 / B2 course, participants have completed a study-related level B2.1 or B2.2 and are therefore eligible for the German C1 course with DSH at TH Köln. It is not necessary to reapply for the course.

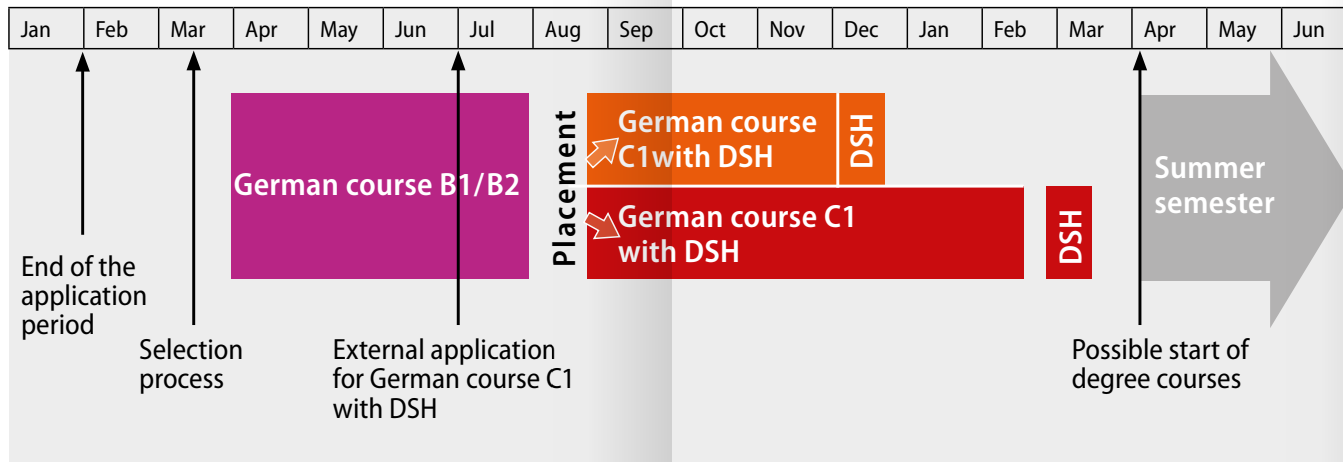

#### **For the German course C1 with DSH**

It is also possible to apply directly for the German course C1 with DSH after finishing successfully the German course B1/B2.

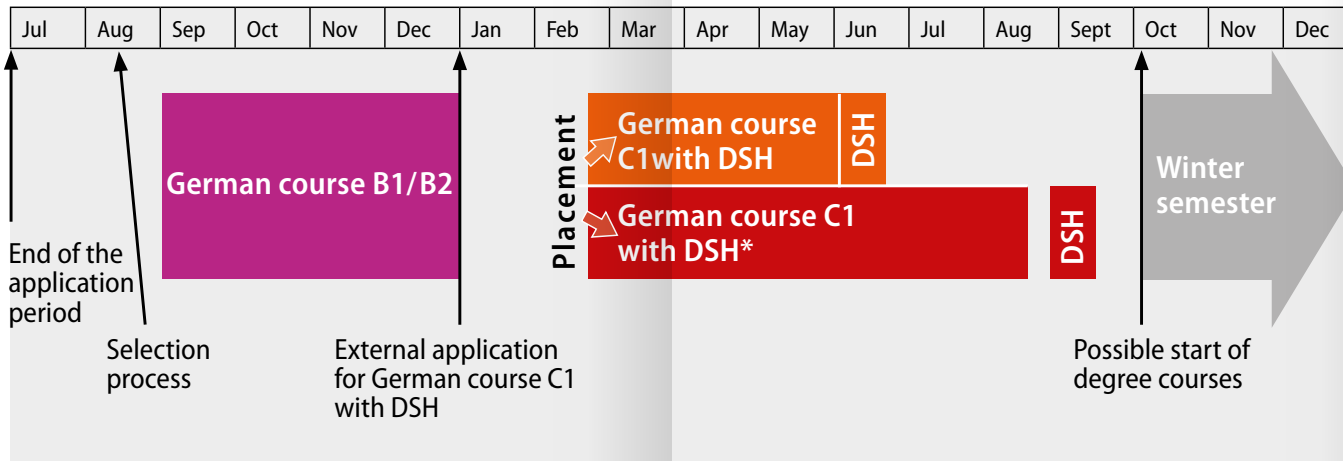

# Course Cycle

## German course B1 / B2 from summer semester / German course C1 with DSH from winter semester

## German course B1 / B2 from winter semester / German course C1 with DSH from summer semester

# Responsibilities
