WHY PARTICIPATE IN A DOUBLE DEGREE PROGRAM?

Receive two master's degrees from Austria and Germany in one program

Students who successfully complete the double degree program will receive an Austrian master's degree from FH Kärnten/Carinthia University of Applied Sciences (CUAS) as well as a German master's degree from TH Köln/Cologne University of Applied Sciences (THK) after four semesters. CUAS students who are participating in the double degree program spend their second semester abroad in the beautiful city of Cologne. THK students spend their third semester in the fascinating scenery of Carinthia.

Gain international experience, build your network and develop yourself

Participants in the double degree program get the unique chance to study at two renowned higher education institutions in Austria and Germany and gain international experience through studying abroad. Learning about European economy and culture from a Western as well as from a Central and South Eastern European perspective will broaden the students' horizon. They can also build an international network and use their time abroad for personal development.

Enjoy a unique combination of metropolitan life and idyllic lakes and mountains

CUAS is located in the South of Austria, embedded between beautiful lakes and stunning mountains. Depending on the season, students can ride down the skiing slopes or jump into the refreshing lakes before class. THK is Germany's largest university of applied sciences. The city of Cologne with its over 1 million inhabitants is a cultural center with lively quarters and over 100,000 students.
