II How to select your courses

Step-by-Step Guide

1. Choose the modules you would like to enrol for

The [module handbook](#) provides you with all the necessary information about your study program. Consult the [study plan](#) to get an overview of the offered modules and the semester in which they take place. Please note that some modules may only be offered in a certain period: 1st, 3rd, 5th and 7th semester correspond to the winter and 2nd, 4th, and 6th to the summer term. An English translation and other useful information can be found in the **List of Modules** on the next page.

2. Consult the general timetable

Since the timetables are published approximately one month prior to the beginning of the lectures and you do not yet have access to the learning platform they are published on, you could kindly ask [Prof. Dr. Krupp](#) (see list above) to send you the timetables. If you have difficulties recognizing the abbreviations in the timetables, please consult the **List of Modules**.

3. Create your own timetable

You can choose your lectures from all columns of the general timetable. On the left you see the abbreviations of the lecturers' last name, in the middle abbreviation of the lecture and on the right the room number. If you would like to attend courses from different columns, please make sure that they do not overlap.

In addition to the obligatory modules there are optional modules, so called electives (Wahlpflichtmodule). Please keep in mind that they are offered in a certain semester and that there is a limited number of participants. Those modules are marked as *optional* in the **List of Modules**. International students should enquire free capacity by contacting the lecturers via email. You can find their their contact details in the official [list of staff](#) of the TH Köln.

If you need any further information please consult the official website of the study programme [B.Sc. Logistics](#).
