Enrollment - Health Insurance
What to consider?
Health Insurance
Statutory or private

Tip: If possible, we recommend you insure yourself with a statutory health insurance

- Offers comprehensive protection in case of illness
- Good price/performance ratio
- Rates and benefits are regulated by law
- No pre-payment required for doctors and hospitals
Health Insurance
What to consider?

- statutory health insurance only possible until 30th birthday
- thereafter voluntary statutory or private insurance
- If you are already 30 years old at the time of enrollment, you must take out private insurance

- If private:
  - Do not select the cheapest tariff level: the lower the fees, the lower the protection!
  - Read the insurance conditions carefully; these are not regulated by law for private providers
  - Check carefully whether the insurance covers your own pre-existing diseases and personal medical needs
Anyone studying in Germany must have health insurance.

Proof of health insurance is required for enrollment (and for the residence permit)

- **Proof of health insurance coverage "Health insurance certificate for university enrollment purposes"** = proof of health insurance coverage in accordance with legal provisions regarding student health insurance

- You can request this certificate from your German statutory health insurance company.

**Note:** A copy of the insurance card is not sufficient.

- The choice of insurance type (statutory or private) is binding for the duration of the study program.
In a Nutshell
Health Insurance

✓ If possible: opt for statutory insurance
  − Have your insurance certificate issued
✓ If private: read insurance conditions carefully
  − Obtain exemption from compulsory health insurance from a statutory health insurance company
✓ Decision is binding for the duration of studies
