

*“Scalefree is the ideal destination that values your input, welcomes challenges, and empowers your voice.”*

Isabel Mateus, Consultant

## BUSINESS INTELLIGENCE - WORKSHOP

### THE WORKSHOP

Join our one-day workshop for a practical introduction to the world of Business Intelligence and Data Vault 2.0. You'll learn how to build a modern Data Platform using our cutting-edge tool stack: Google BigQuery, dbt, and Looker Studio. We'll guide you through analysing data, modelling it with Data Vault 2.0, implementing it in a data warehouse, and finally, dashboarding your results to present insights.

### WHAT ARE WE LOOKING FOR

- Ongoing studies in business informatics, mathematics, computer science or a comparable course of study
- Interest in big data topics
- Basic knowledge of SQL and databases
- Knowledge of dashboarding is an advantage
